### Q1 The training was well planned and organized

22 απαντήσεις

If you want, you can provide comments supporting your answer.

The planning was well organized, but I think dynamics would be better working on mixed nationality teams

Thanks for the opportunity to be here!

Due to the large group, any delay caused unnecessary shifts. Participants should respect the schedule. This would make the work of the meeting organizers and other participants easier.

Everytime there are always something to improve

there was not clear what we do at what time, and there was not clear tasks what we need to do in each session. Place and food was well organized, also working in one platform all together there was problem with internet.

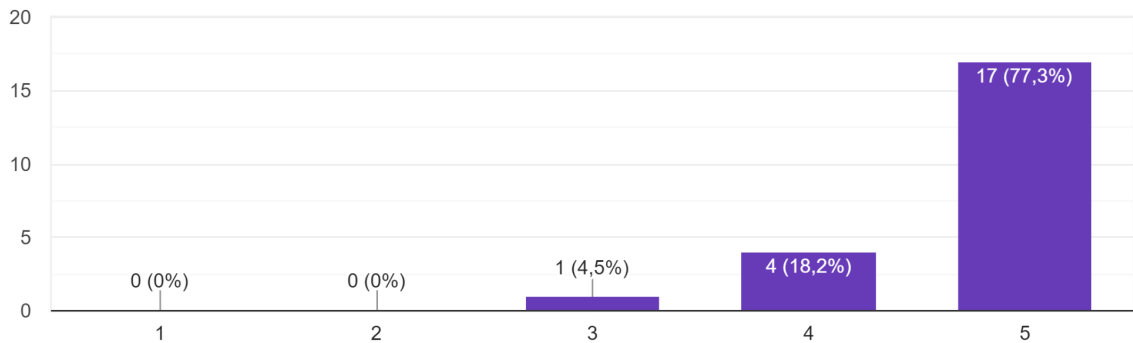

Great timing to allow traveling Monday and Friday. We should do the same for next trainings

-

The trainers were very prepared

Q2 About time management, I think there was enough time to work on all topics that were announced (Structure of the course, Storytelling to...eating animated videos, Publishing of the videos).

22 απαντήσεις

If you want, you can provide comments supporting your answer.

Maybe there were some technical parts that needed more explanation time, but generally it was well managed

Sometimes there were even too much time

There was enough time, but we'll need to practice before going to schools.

In my opinion we need more time to focus in the practical aspects rather than the theories ones

There was enough time work on topic, but time management was not well done, we can work more structured way!

It would be better if we had done mixed intercultural groups instead of national groups.

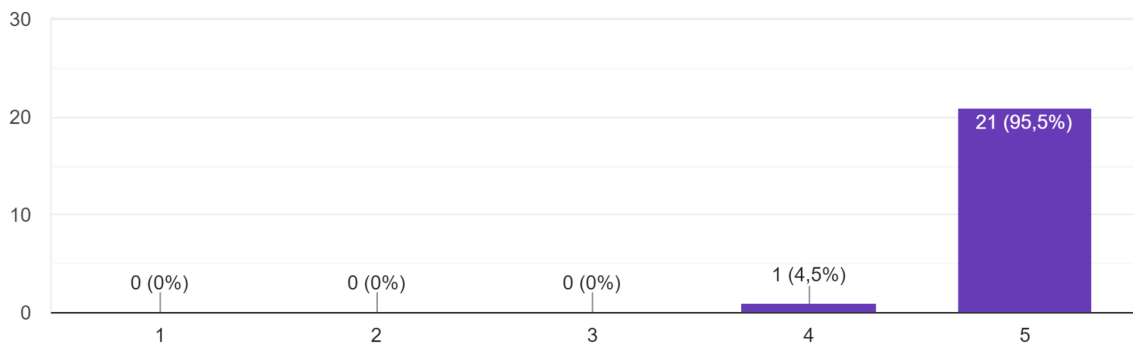

-

There was enough time for all the topics

TRAINING AGENDA AND CONTENT

Q3 Together with all participants, you had the opportunity to contribute, discuss the training materials to build a common vision the project aims and expectations with all participants

All clear

I have clear what we have to do. We just need to work on it to ve ready.

It helps me understand more tool what will be used during workshops at school!

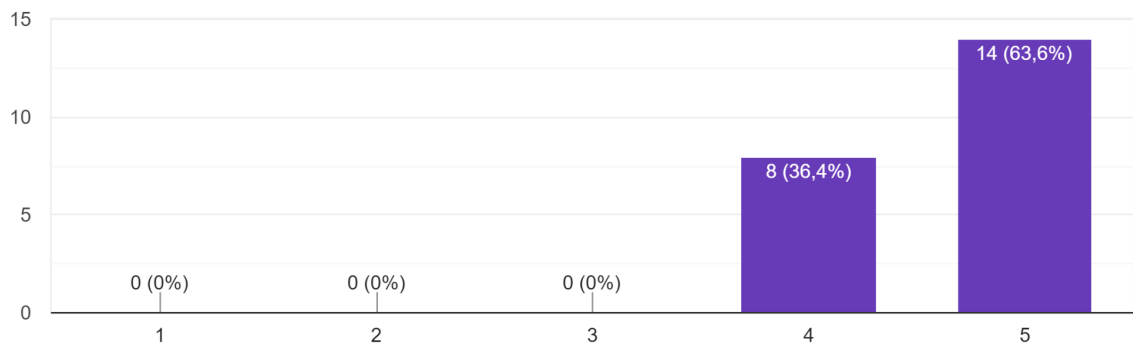

-

I need more time to practice by myself.

I hope to know how manage the training în my school

Q6 The Toolkit on Entrepreneurial Storytelling is now clear for you. How to use it ? How the BELIKEYOU training lab is structured ? How to organize your local actions during the pilot ?

22 απαντήσεις

If you want, you can provide comments supporting your answer.

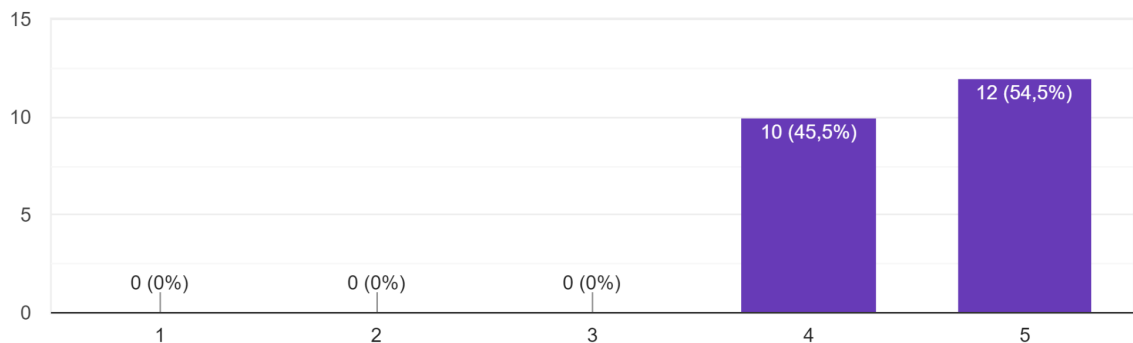

All clear

-

The toolkit on entrepreneurial storytelling is clear for me, I know how to use it. I will do my best in the organization of my local action.

Q7 Have you learned the main techniques of Entrepreneurial Storytelling necessary to delivery the BELIKEYOU lab with students in your school in your local area?

22 απαντήσεις

If you want, you can provide comments supporting your answer.

Some troubles with the Animaker, but I think it just needs more practice

I have learnt the. Just need time to practice more with them.

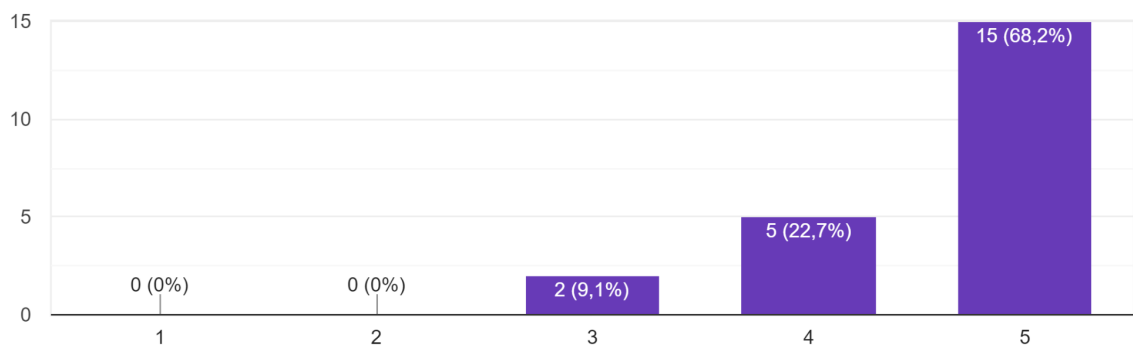

I think we need to have more focus during video and animation about different story telling methods!

-

Yes, i have learned the Main techniques of Entrepreneurial Storytelling

Yes, I also had experience with that

This should not be difficult and we have the presentation on drive to help us, so it shouldn't be a problem.

-

I have learned the Main techniques for Video publishing

Q11 Please provide comments supporting your answers to questions above. Are there any additional comments or suggestions you would like to make regarding the ongoing work for preparing the pilot ? Anything missing or that could have been adjusted ?

No, just what I said before. Thanks for all!

The trainings were well organized and it was really valuable time, however I believe some things could have been done faster. Maybe we should divide into two groups - one that has a higher level of digital competence and the other that needs more help

Maybe we can keep communicating online to solve any doubts that could arrive during the development of IO2.

The training program made it possible to understand, step by step, the assumptions and techniques that should be used during the pilot training in schools. The course of the meetings allowed all partners to familiarize themselves with the tools and the prepared materials. This will allow the preparation of scripts and presentations of individual meetings at the national level. Meeting in a large group will reduce communication barriers that occur in remote contact. Any questions can now be directed to specific trainers, bypassing the national coordinators and the main project coordinator.

The whole activity was very well organized and all objectives were achieved.

I m happy that I have developed my skills and that I have learned so many new things on this training.

More days to learn how to create a video!
