## BELIKEYOU Online Kickoff Meeting Evaluation

Q9: Please provide comments supporting your answers of Q1 to Q8 above.

Are there any additional comments or suggestions would you like to make regarding your role or the expected work ? Anything missing or that could have been removed ?

- The kick off meeting was really good. It helped to get a better understanding of the project and to know better each partner.
- The kick off meeting organization was really good. The communication and tools were also good considering the difficulties of the online meeting.
- It was a very interesting experience, the meeting was very well organized despite the obvious difficulties of working in a virtual environment and not being able to meet in person. Every partner did their best to overcome this setback and give the overall feeling of an actual live meeting. Special thanks to the Italian management of time and resources.
- The meetings were concise and included all the necessary elements
- In the kick off meeting given all the appropriate explanations about the future work and the organization of the project and all the participants seems to be ready to work and produce quality results.
- 10 minutes breaks in between!

Q10: Suggestions - concerning the next steps of the project IO1 and IO2 development and TPM2 in Poznan how would you like to contribute?

- About the surveys, it would be good to share questions among the partners, and that everybody could propose any modification on the surveys
- Everything is clear concerning the next steps and our contribution is to develop it in the best way and using our tools. As discussed in the meeting, it could be great to have regular meetings to check the development of each one.
- I am eager to contribute in every way I can, especially in my field of expertise which is languages and text writing. I can organize my students in participating in the various activities, help in the syntax and the editing of the questions and answers in the interviews required, and generally do my best to linguistically smooth up the procedure for them, every step of the way.
- Remote meetings have positive aspects - brevity and convenience. Nevertheless, let's do everything to ensure intercultural exchange and the possibility of stationary meetings.
- We will try to involve as much as possible students in this activity.
- Doing my tasks.
